

EGICAR

VIRAS Y CERCOS, S.L.

# INTRODUCTION

**Egicar, Viras y Cercos S.L.** is a company dedicated to the manufacture and distribution of footwear welts, with more than 30 years of experience. Our company is located in the city of Almansa, one of the Spanish areas with the longest tradition in the high-end footwear industry.

Since its foundation, the company has followed a constant evolution, both in machinery and materials as well as in personnel, all of these variables being based on very high quality standards.

In **Egicar Viras y Cercos S.L.** we are equipped with the most innovative means, as well as modern facilities, fully adapted to the needs of our customers. This makes us very competitive in both large and small orders, always in accordance with the needs of the client, whether in Spain or anywhere in the world.

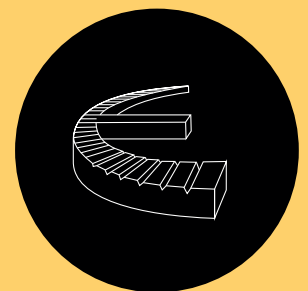

## DESIGN AND TRADITION

Our company is committed to the constant evolution of our products. For this reason, **Egicar** has a design department at the service of our customers. This department allows the customer to be up to date with the latest trends and products on the market. All projects are welcome, no matter how complicated they may seem. Our laboratory of ideas is the protagonist day by day of the new trends, where its design is in charge of our team and, the delivery of samples/catalogues, is made effective according to the needs of the client.

The experience in the sector, the in-depth knowledge of the characteristics of the products, the different materials, the techniques and the production problems, allows **Egicar** to propose itself not only as a qualified supplier, but also as a consultant and partner for companies in the footwear sector, collaborating in the creation of a final product of greater value.

We are committed to teamwork with our customers and suppliers.

# PRODUCTS

---

## ■ *LEATHER*

Nuestros artículos en cuero están fabricados con cuero europeo de Our leather goods are made from the highest quality European leather, most of which is of French origin and tanned in Italy. We can proudly say that our leather goods are among the best in Europe, both in terms of quality and price.

## ■ *REGENERATED LEATHER*

These articles follow the same raw material policy of the company, only working with top brands of regenerated leather. This means that our products in regenerated leather are finished in accordance with the company's quality standards.

## ■ *RUBBER*

These articles are traditionally available in basic colours such as black, brown or ochre. We also have the option of a wide range of colours to suit the customer's needs. It goes without saying that this material follows the quality standards of the company.

## ■ *GOODYEAR*

Articles dedicated to manufacturing using the Goodyear method, considered to be the manufacturing method par excellence for footwear. Due to our origins located in Almansa and our experience over the years, we can consider ourselves one of the best producers of Goodyear welts in Europe. Our range of products goes from the most classic models to the most avant-garde ones, all with an unbeatable quality and price.

## ■ *TR*

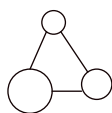

We can say that we are the only manufacturer of this product in Spain. This type of product is manufactured using state-of-the-art extrusion machines with materials of European origin. It is a very versatile product, which allows a wide variety of products, either solely made of TR or in combination with other raw materials.

## ■ *YUTE*

Our company is located about 100 km from the epicentre of jute in Europe, Caravaca de la Cruz. This gives us great versatility when it comes to carrying out projects of everything related to jute, whether in terms of sizes, types of braiding, sewing, etc.

AND SELECT THE  
BEST PRODUCTS

WE SELECT  
RAW MATERIALS

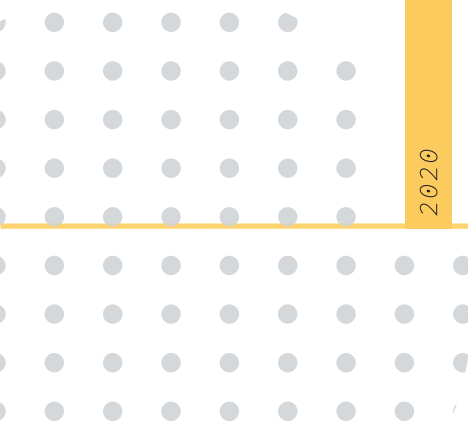

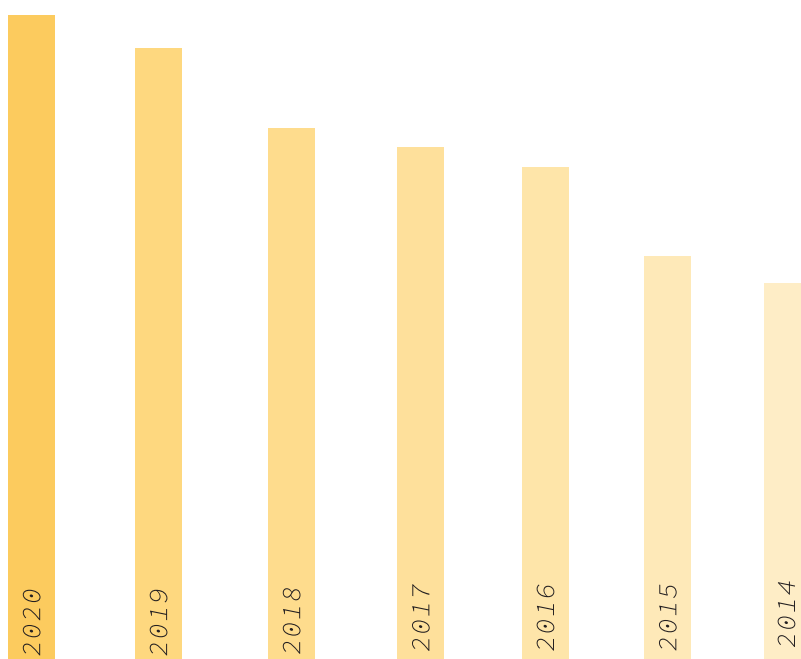

The company has grown notably in the last few years, with the last two years **showing remarkable growth**. This growth is due to our product, of very high quality at a very competitive price.

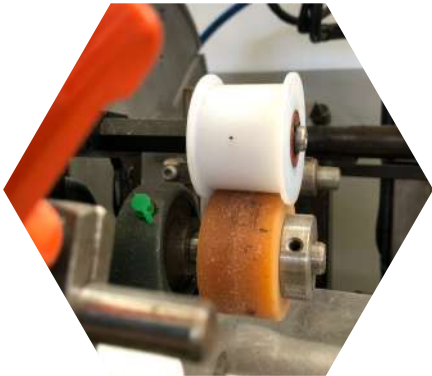

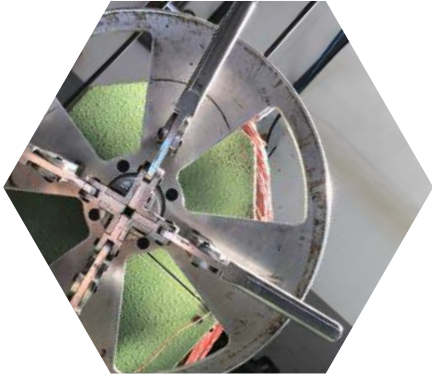

Part of this evolution is due to the wide **variety of products** developed by our design team and the wide range of materials that the company handles.

If we add to all this the **consolidation of our products** in new markets during the last 6 years, it gives us a clear advantage over our competitors.

## STATISTICS

# PRODUCTION TEAM

One of the main assets of **Egicar Viras y Cercos** is its facilities, its personnel and its machinery.

With the latest generation production equipment in terms of machinery, our entire production process is computerised through our integral ERP. In spite of this, our company is always in continuous evolution, dedicating an important part of its annual budget to continuous improvement, either through more efficient processes or processes with greater added value. This allows us to get involved in our customers' needs, in terms of quality, price and delivery times.

If we add to all this a **highly experienced team**, carefully selected by our human resources team, the result is quality articles with high added value, respecting the deadlines dictated by the customer.
